

I am writing to say I do not want LPFM stations to be able to take priority over current FM translator services. I would not be able to get my favorite radio station K-LOVE any longer. This would effect my entire family as they play only family friendly music. We would not be able to listen to the radio knowing our kids would not hear vulgar language etc. Our local community would also lose out on the same opportunity. K-LOVE is a great asset to the public as it is one of the few Christian stations one the air. Please don't allow it to be taken away. Thank you!
